

KLEAN-NET FILTER BAG

KNB-1

Multi-Function 10 Micron Bag

- ◆ Re-useable 2.5 sq.ft. filter
- ◆ Easily cleaned - simply remove clip on the end, shake and rinse.
- ◆ Rugged, long lasting construction.
- ◆ Three important functions:

Final filter for fill water. Attaches to fill line and forces all fill water through 10 micron filter before it touches the pool's surface.

Polishes pool water when placed over return fitting. Collects any particles that manage to pass the pool's filtration system.

Collects backwash debris (including diatomaceous earth) when attached to the end of the backwash hose. The debris can then be easily disposed of properly.

4.5" TONGUE AND GROOVE PLIERS

TGP-4.5

- ◆ A welcome addition to every pool tech's tool box
- ◆ Will become one of the most used tools in the box.
- ◆ Great for working in those tight places.
- ◆ Jaws adjust from 0 to 1/2 inch.
